Dear Well Driller:

The Department of Water Resources issued drilling authority one year ago for the well referenced by the file and registration number as indicated on the above label. To date, our records show that this well has not been drilled.

If this well has been drilled, Arizona Revised Statute §45-600 requires that the driller furnish a complete and accurate **Well Driller Report** (log) within thirty (30) days of concluding drilling.

If this well has been drilled, the file needs the above mentioned report to bring the well into compliance with the law, and you should ensure that this is done.

If you have not drilled this well, but it is your intention to do so in the future, this is to advise you that the well owner must refile a **Notice of Intent to Drill** in order to obtain authority to commence drilling.

Your immediate assistance is appreciated. If you have any questions, or need further information, please contact Carlane Stephan at (602) 417-2470.

Sincerely,

Creola Lasky
Supervisor, Records Management Unit

RE: Registration No. 55-549169 thru 55-549171

File No. D(4-9)28CDC

Dear Well Owner:

Enclosed for your records is an annotated copy of the Notice of Intention to Drill a well. This is returned to you as evidence of compliance with A.R.S. §45-596. A drilling card has been mailed to your designated driller. Prior to drilling he must have it in his possession.

Since this well is being drilled as a Monitor well, or for Cathodic Protection, Grounding, Geotechnical or Piezometer purposes, our standard driller report form is also being furnished to the driller. He is required to complete it and return it to the Department within 30 days after the completion of the well. A Completion Report form is being furnished for monitor wells where pump installation is authorized. This must be completed within thirty days of installation as required by A.R.S. §45-600.

A Change of Well Information form is enclosed for your future use. If you deem it necessary to change the location of the proposed well, please notify the Department on the enclosed form. A properly amended Drilling Card will then be issued and must be in possession of the driller before drilling begins. During the drilling of a new well, if it is determined that it must be abandoned, then a Well Abandonment Completion Report must be submitted per R12-15-816.F.

Per A.R.S. §45-593, the person to whom a well is registered shall notify this Department of a change of ownership of the well and/or information pertaining to the physical characteristics of the well, in order to keep the well registration file current and accurate.

For additional information, you may contact the Operations Division at (602) 542-1581.

Sincerely,

A handwritten signature in cursive script that reads "Dorothy Boggs".
